IAM logo

What Does the IAM Logo Represent?

Independence is the foundation of American democracy. What does this independence mean to an individual? It means not to be influenced or controlled by others.

The goal of Independent Artist Music is to support artistic independence and a choice to collaborate and create the best music our community can produce.

The three (3) vertical lines within our logo symbolically represent the pillar of the Artist, Music and this Independent relationship.

Our Mission and Vision is to help artists receive fair and equitable compensation for their work.

We can and will be successful in this effort by implementing a digital / media marketing model that embraces the freedom of artists to write, make and perform music. This foundation will be supported using an integrated internet platform that brings together our music community in a synergically and harmonic balance between artist, music, individual fans and what we hope is a whole new listening audience.

What do the inner and outer circles represent?

Within the two circles, Artist and Music are balanced and depicted on the left and right side of the inner circle. The Artist represents the individual and Music the product. Our community will fulfill this vision through collaboration as we join together to create the best possible Independent musical works outside the control of the music industry.

"Viva la música revolución"

The inner circle represents an acoustic guitar "sound hole". This hollow chamber aids in harmonic vibration, facilitates resonance and increases volume. Symbolically, we want to be heard and give the listener an option to change the channel and free themselves from computer generated algorithm playlists and replace these with fan and listener based independent musical choices.

The outer circle represents the community previously described and our ability to collaborate and bring to the fan and listener the best music previously never heard. Original musical compositions that are not muted out or under the influence of the highly controlled multibillion dollar oligopoly called the Music Industry.

"Viva la música revolución"

For those that may have not heard, our tradename **Independent Artist Music** has been approved by the Arizona Corporation Commission. The Logo and articles of incorporation were also submitted for approval on April 7th. Our EIN has been issued and once our website is functional and up and running, allowing for members to join and pay the \$25 annual application fee, we will open a bank account. The cost for non-exempt IRS status is \$600 and we will be planning a fundraiser to help cover this and future operational costs.

Your current board of directors consists of:

- Sandy Hathaway Chairperson**
eMail: Hathaway_Music@yahoo.com
- Dennis House Vice-Chairperson Operations**
eMail: houseden@cox.net
- Ella Scofield Vice-Chairperson Marketing**
eMail: emarlienne@gmail.com
- Bill Marek IAM Founder / Treasurer**
eMail: BillyCageMusic@gmail.com

We are currently seeking someone to volunteer and fulfill the role of IAM Secretary. If interested Please contact Sandy or Bill. Colorado (Liz) Marek has been appointed IAM parliamentarian.

Next board meeting is scheduled for April 20th, 2022. Location to be announced.
